

**TARIFF PICTURES.**  
Toledo's tactory employees earned on the average \$535 a year in 1880 and \$514 in 1890. They received altogether \$8,260,450 in 1890 and \$4,003,092 in 1880. These changes were wrought in Toledo's favor by one Protective Tariff.

Secretary Carlisle has ordered his subordinates not to divulge information concerning the status of the Treasury. "Open the books" is another Democratic howl that has gone into "innocuous desuetude."

**PEPPERIAN PICTURES.**  
St. Joseph Herald.—Senator Peffer has been made Chairman of the committee to "examine the several branches of the Civil Service." He is himself a rampant violator of the spirit of the Civil Service law, in that while drawing a salary of \$5,000 a year as Senator, he has succeeded in placing in official position, at fat salaries, a son, a daughter and a niece.

**FOURTH OF MARCH WEATHER.**  
Beginning with Grant's second inauguration in 1873, a period of twenty years, during which six Presidents have been inaugurated, the 4th of March fell on pleasant days only twice. The 4th of March, 1873, was a bitter cold and blustering day. There was neither snow nor rain, but the temperature was so low that death reaped a large harvest among those who participated in the parade. The 4th of March, 1877, when Hayes was inaugurated, was a miserably damp, pneumonia breeding day. It is evident that the weather, or the date of the inauguration, or the pomp and ceremonial of the event must be changed.

**THE "MISTAKE" DISCOVERED.**  
The "satisfaction" with which President Cleveland's methods of dealing with Federal patronage are received by his party was forcibly put by a disappointed Missourian as follows:  
Here was Massachusetts, which was almost the only state with increased Harrison's majority. She has got the Attorney General, the Assistant Secretary of State, the Comptroller General, the Treasurer, an Assistant Attorney General, and ex-Congressman Coville goes as Minister to Switzerland. There are six big places Massachusetts has got in sight already. And what has Missouri got? Nothing. I tell you, we made a great mistake when we increased our democratic majority.  
One can almost hear the soft flutter of the wings of Democratic harmony in every line of this bitter utterance.

**YOU MUST PAY THE PLUMBER.**  
A Chicago plumbing company has placed in and about the World's Fair Buildings about 3,000 lavatories and water-closets, for the use of which five and ten cents will be charged. It is said to be a great snarl, and that the company granting the privilege will realize at least \$2,000,000. Discussing the magnificent scheme a Chicago paper says:

If any one thinks he can see the World's Fair for fifty cents, he will find that he has made a serious mistake. Some one will presently obtain a concession to all the air at Jackson Park and sell it to visitors at so much per breath. This petty extortion is not only vexatious, but outrageous. The water privilege, the tolling, and the privilege to usurp the benches in the park and charge money for sitting on them—all these and a hundred others have been granted. In many cases it cannot be learned that the Fair Directors have received anything for the grants. In others the amount to be paid is so small in comparison with the lowest estimate of the profits that it would be better for the reputations of the grantors if the franchise had been a free gift.

**WILL DO TO BET ON.**  
Murat Halstead, in a New York special to The O. C., says of the new Administration: The man who bets on the United States will win every time. Nothing—not even the Democratic party—can destroy the prosperous growth of this country. It is clear now that the peril of a panic associated with the change in the National Administration has passed away. A very distinguished Democrat, last summer, at Coney Island, accounting for the apathy that could not be disturbed, said: "The great corporate interests, capital, what they call Wall Street in the wild and woolly West, took charge of both National Conventions, nominated Harrison at Minneapolis and Cleveland at Chicago. They are generally satisfied that neither Harrison nor Cleveland will set the world on fire or permit incendiarism. There is some excitement over the Tariff on account of the new amendment of the platform at Chicago, but Cleveland would go slow if he felt in. The Omaha people were fools—wild asses of the desert. The old parties do not differ so much as they did, and the new ones will not sense enough to get their hair cut."

**NEW YORK, March 20th, 1893.**  
Princess Kalulani arrived from Washington this afternoon. While at Mayville, Ky., she examined the Gem of the Ocean. Frank Owens Hardware Co. and pronounced it the best she had ever seen and will order a lot of them to present to her subjects. She sails on Wednesday.

**FIRST YEAR.**

**UNCLE SAM'S PENSION HOLDERS.**  
The most unscrupulous birds that prey upon the Nation are the Congressional pension advocates. They work for pension grants. For the voters and their make-believes. And their cousins and their aunts.

The pension lists are full of names of pension holders. To know the sound of gunpowder. To get into the money. To get his hand on public funds. Each turning patriot poets. And so do all his sisters. And his cousins and his aunts.

No matter if he lost his eye. While tramping with a mule. Or amputated a leg at school. He interviews his Congressman. And that who man descends. He returns the justice due him. And his cousins and his aunts.

All honor to the brave and bold. Who fought the great, good fight. And let the Nation sleep. As a tender mother might. But let these sharks and their make-believes. These public corruptors. Earn a living for their elders. And their cousins and their aunts.

WILLIAM HOWARD of Aberdeen and Rose Cuneo of Cincinnati were married in the latter city. Howard is watchman on the steamship Big Sandy. Neither of the parties are of age, says The Ripley Bee, but it was a case of had to.

SOMEBODY of somewhere attempted to send a large towel through the mail to some body else somewhere else. They were careful to pay six cents postage on the package, but as they failed to put the least sign of address or even their own name on it, it remains in the Postoffice. Will people ever learn that Postmaster can't guess everything?

JOHN W. SANDERS, alias "Paregoric," colored, and Katie Silverthorn, a handsome white woman, eloped from Calistburg to Ironton and married. They were both employed as waiters in the dining-room of the Alger House. "Paregoric" is the same fellow who, on promise of marrying her, ruined Beatie Allison, a colored domestic, who committed suicide a few weeks ago by taking rough on rails.

**SMOKE** Nancy Hanks Cigar, queen of the turf.

A STROCK case was made out against the inebriate Hardin county preacher, Whayne, at his trial last week. His daughter, though weak from her recent confinement, was unshaken in her evidence, which positively proves the guilt of her unnatural father.

REPORTS from various places along the line of the C. and O. indicate that there is a gang of railroad thieves at work along that road. Drygoods and clothing merchants are the most frequent victims. Boxes are broken open in an expert manner at the station instead of the top, and the robbery cannot be detected until the goods are opened by their owners. Local merchants have suffered to some extent.

TWO Middleborough Democrats of the colored race were arrested, according to The News, booked for jobs under Grover. J. W. Campbell thinks he is going to Three Rivers, Canada, as Consul and B. J. Newlin is supposed to have a crack on a Washington clerkship.

THE Carter County Circuit Court has been compelled to devote its entire term to criminal cases. It was supposed that the smaller crimes and cases frequent common terms would prevent this interference with civil cases. The old remedy was to establish courts of common place.

The Lexington copied the article sub-stantially as a piece of Mason county news. There was no truth in the report, as the young gentlemen have no idea of undertaking such a journey.

I am happy to say that after two days he was relieved and after three days he was cured. I have the same remedy and it is a great cure. I had another attack the next day. I gave the same remedy and a great cure was effected. I feel that I cannot praise Chamberlain's Cough Remedy too highly.

Early and Late

Advertising in THE LEDGER is a salesman that works early and late. He is talking to people long before your store is open and long after your store is closed.

They draw the color line very strong down in Texas. The Legislature has just passed a bill requiring railroad companies to provide separate doors for whites and negroes.

A NATION whose people have cleared its lands, built its mills and shops and mechanism, opened its beds of ores and coal, and are paying its debts and taxes, cannot be expected to admit foreigners who have no share in these tasks or burdens, to its markets on equal terms with its own citizens. A tariff is a means of asking them to pay reasonably for the privilege of bringing in their products, and at the same time of building up home industries and giving employment and independence to the people.

CHARLES S. THOMAS, Democratic National Committeeman from Colorado, who won notoriety at Chicago by opposing CLEVELAND's nomination, says: "We will continue the fight for free silver until we get what we want, if it takes four or forty years. The action of the Democratic party on this overpowering issue will determine how long it shall continue in power. If it is governed by the anti-free coinage element the Democratic party will go to pieces. And if it isn't governed by the anti-free coinage element" it will go to pieces just the same.

In 1830, when England was under Protection, she transacted 27.2 per cent. of the foreign commerce of the world, and the United States only 3.7 per cent.

In 1880 England's share had shrunk to 21.2 per cent. and America's share had increased to 11.5 per cent. English exports are no larger now than they were in 1833, but Protectionist Germany's export trade has doubled in a decade.

Both the United States and Germany are doing upon England's point of view commerce with seven-league boots. It is only a question of time—and not many years either—when the United States will pass the Free and become first here, as it is in total commerce.

DIED FOR LOVE.

Schoolboy's Horrible Method of Committing Suicide.

He Was in Love With One of the Female Scholars.

Who Was Impartial in Restoring Her Affections.—The Boy Lays His Head on the Rail in Front of an Approaching Train and is Decapitated.

F. LOUISVILLE, March 23.—Because of unrequited love, Willie Fry, aged seventeen years, laid his head on a railroad track and suffered decapitation. This was the suicide which occurred on the Louisville Southern railroad, near Shelbyville, Tuesday.

Fry's home was at Hempfield, in Shelby county. He had been in love with a school girl living in the neighborhood for some months past, and while she was always affable and kind to him she did not encourage his attentions. Any more than did the other boys who were equally devoted.

Young Fry became despondent over his failure to secure sole possession of her affections. He was very moody. His little sweetheart was a pupil at the same school, and talked to him a short time before the bell rang, telling him to wait until the other boys were making merry. Fry walked to a point on the railroad near by, where there was a sharp curve, and waited for the train, which was soon due. At its approach he laid his head on the rail. The engineer saw him, but it was too late, and his head was soon cut off as if by a guillotine. The teacher heard the train stop, and as it was something unusual, he went to see what was the matter. Fry's sweetheart, went to investigate. A sickening sight met her eyes. The decapitated body lay by the track, and the head had been rolled away by the engine. The remains were taken to the schoolhouse, and finally to the parents' home.

FERRY'S FUNERAL.

An enormous crowd in attendance.—The funeral of the late Mrs. J. Douglas Ferry, March 23.—The Luxembourg palace was draped in mourning Wednesday in respect to the funeral of Jules Ferry. The grand funeral was composed of two regiments of artillery and two regiments of dragoons. Barbois, vice-president of the senate, Mon Perrier and M. Ribot spoke funeral orations in praise of deceased, of whom M. Barbois said: "France has lost a statesman whose upright life has been a lesson to all to touch and whose aid has been essential to the nation in times of difficulties or social disorganization."

The funeral train here proceeded to the Garde de l'est, followed by an enormous crowd in respectful silence. On arrival at the station the troops marched past the hearse, pressing arms, while the body was put on board a special funeral car at 9:35, to be taken to where the burial will take place.

ON A STREET CAR.

Woman's Furse Seized and Herself Dragged to the Street and Pulled.

ST. LOUIS, March 23.—Mrs. J. Douglas, of 2515 North Twenty-third street, is suffering from the effects of a fall from one of the cars of the city electric line which might have terminated her life. It was the result of one of the boldest street car robberies ever perpetrated in this city. A foot-ped seized her purse, and when she caught hold of him he jumped from the rapidly moving train with such suddenness that she was dragged after him, all unprepared for the leap, and fell headlong to the street, where she lay for some moments unconscious. She soon recovered sufficiently to be moved to her home. No bones were broken, and unless there is some internal injury she will recover. The thief escaped.

An Ocean Race.

ST. FRANCISCO, March 23.—Four British ships left here Wednesday morning on a race around Cape Horn to England. They are the Bowden, Pinmore, Lord Templer and Loch. All are bound for Cork, except the Lord Templer, which goes to Liverpool. The ship City of Athens, which sails Thursday, will join the race. The captain of each ship put up \$250, and the winner will take \$1,000, while the second ship will save stake money. All the ships are loaded with grain.

Negroes Run a Town.

MERIDIAN, Miss., March 23.—The town of Purvis, Miss., was destroyed by incendiaries Tuesday night. Almost every store and residence in the place was wiped out. It was feared that the conflagration is the result of a bitter feeling between the white people and the Negroes growing out of the arrest of a Negro preacher, who was fired the town and set on fire. A fire of citizens led Meridian for Purvis on a special train late Wednesday afternoon.

WASHINGTON NEWS.

What is Being Done at the Capital of the Nation.

Secretary Russell said Wednesday that the statement that no women were to be appointed to postmasterhips, and that newspaper men were also to be discriminated against, is untrue.

Secretary Carlisle Wednesday issued an order to chiefs of division in the treasury department, to dismiss all clerks whose services are absolutely unnecessary. Ten were recommended for dismissal.

The appropriations for the superintendence of the census have already been exceeded, and Wednesday the ax fell in that bureau, cutting off five employees. More dismissals are bound to follow as every other bureau is similarly afflicted.

Representative Holman, of Indiana, who called at the white house Wednesday, is authority for the statement that they will not be an extra session of congress unless some condition not now existing and unforeseen arises.

The U. S. senate Wednesday confirmed the nomination of Charles B. Reade, of the United States, district of Indiana; David T. Guyton, marshal of the United States, district of Mississippi; Wm. H. Hawkins, marshal of the United States, district of Indiana.

At the caucus of the democrats, which nominated a ticket for senate officers, it agreed that certain changes should not be disturbed. Among them are the venerable assistant doorkeeper, Isaac Bassett, and Acting Assistant Doorkeeper, Charles B. Reade.

The following fourth-class post offices will be raised to the presidential class April 1: Cloverport, Ky.; Plainville, N. Y.; Hill, Neb.; Chatham, Ok.; Edmond, Ok.; Hennessey, Ok.; Ripley, Tenn., and Randolph, Tenn.

Admiral Gherard called at the navy department Wednesday and held a long conversation with Secretary Harbord on the naval review. He will leave for Norfolk Thursday and arrange the arrangements for the fleet is rendezvous on April 27.

A TARIFF BILL

As suggested by the Reform Club of New York City.

New York, March 23.—A special committee of the reform club of this city, consisting of E. Ellery Anderson, Chas. S. Fairchild, D. O. Shearman, David A. Wells, John D. Wharman and Everett P. Wheeler, has completed the draft of a bill which, when completed, will be urged upon congress as a substitute for the present tariff laws. Crude materials to be used in the process of manufacture are in general made free of duty.

Silk manufacturers generally are placed in Schedule 2 at 30 per cent, instead of with cottons and woolsens. Silk yarns, silk thread and sewing silk, which are now charged 30 per cent, are placed in Schedule 1 at 10 per cent, and spun and thrown silk at 15 per cent, leaving raw silk, of course, free. The 25 per cent. schedule is the most important of any. All foreign metals—not merely in ores, but in pigs, ingots and bars, with the exception of iron and steel—have been made free of duty.

The duty upon woolsens and worsted manufactures of every description is placed at 25 per cent. "It would be exceedingly difficult to have a specific free list, but to make everything free which is not made expressly subject to duty." All articles upon which the revenue collected is too small to pay for collection, upon which it is not probable that any more reduction of rates would produce substantial revenue, have been placed on the free list. We are satisfied that the proposed tariff would produce an immense revenue of \$120,000,000.

Maxwell's Policy.

WASHINGTON, March 23.—Hon. Robert A. Maxwell was installed as fourth assistant postmaster general Wednesday. Maxwell, formerly of the War Department, had been installed the office was crowded with a horde of office-seekers. To almost every one Mr. Maxwell was compelled to explain the former policy and explain that without important causes, such as death or resignation, postmasters would not be superseded until their term of office expired.

Believed to Be Nihilistic.

MOSCOW, March 23.—M. Alexeeff, mayor of this city, who was shot Tuesday afternoon at a meeting of the city council, died from his wounds. He had been injured early Wednesday morning. Adrianoff, his murderer, refuses to make any statement as to his reason for shooting the mayor, but the police are firm in their conviction that the crime is the outcome of a nihilist plot.

### HIS PROOFS.

Prince Bismarck and the He-brew Speculators.

Large Sums of Money Belonging to the State Dishonestly Transferred.

Exciting scenes in the German Reichstag when Rector Ahlwardt rises to present his Evidence—A Committee Appointed to Examine Charges.

BERLIN, March 23.—There was a very large attendance of members and others at the opening of the Reichstag Wednesday, interest and curiosity being whetted by the expectation that Rector Ahlwardt would produce the documents he claimed to have in his possession, showing that during Prince Bismarck's occupancy of the chancellery fraudulent contracts had been made repeatedly with Hebrew financiers, and that vast sums of money belonging to the state had been transferred dishonestly to Hebrew speculators.

At Tuesday's session of the reichstag Ahlwardt caused great excitement by making these serious charges against Prince Bismarck and several other men who now hold ministerial positions. Dr. Miguel, Prussian minister of finance, was specifically mentioned as being implicated in the charges.

When the reichstag opened Wednesday nearly all the members were in their seats and everywhere through the house there were evidences of the excitement that had been caused by the Ahlwardt's charges. Immediately after the president took his seat Ahlwardt, upon whom all eyes were fixed, arose and stated that he wished to lay a few papers on the table. This announcement was the signal for excited shouts from the members demanding that he furnish those papers at once. The documents, eleven in number, which he was directed Tuesday to furnish.

Ahlwardt in response to these demands, said that after Easter he would supplement the documents he now furnished with other papers bearing out these statements. Renewed demands were made that he produce at once all of his alleged documentary proof of dishonesty on the part of officials and officials.

Count Von Ballestrem, a leader of the center party, moved that the sitting of the reichstag be suspended in order to allow a special committee to examine the papers already presented. Herr Richter, the Freisinnig leader, opposed Count Von Ballestrem's motion so far as it related to a suspension of the sitting, but concurred with him in demanding an immediate inspection of the papers. Count Vdn Ballestrem's motion was finally adopted, and an hour's recess was taken after a committee had been appointed to examine the documents.

### A VAST CANAL SCHEME.

From Lake Erie to the Hudson by Way of Canada.

OTTAWA, Ont., March 23.—There is a bill before the Dominion parliament to incorporate the Northern American Canal Co. Associated with Chauncey Dutton, the promoter, who is from Pittsburgh, are a large number of Canadian capitalists, including J. W. McLean, Arthur Prieur and W. Y. Soper. The capital stock is \$10,000,000.

The object of the company is to build a wide, deep channel with the fewest possible locks, between Lake Erie and the seaboard. The channels would be so wide and deep that the largest lake vessels could steam through them at full speed. There would be but seven locks between Lake Erie and the seaboard, and but four between Montreal and New York, and the locks would move two vessels at the same time, one ascending while the other was descending. It is proposed to obtain a charter from the state of New York and make the canal from Lake Champlain to the Hudson river. No U. S. charter would be required, as the work would be entirely within the state of New York.

By leaving Lake Erie would descend to the Niagara river and Lake Ontario, descend the St. Lawrence, the Cornwall canal and Lake St. Francis, pass via the Chateaugay and St. Louis sections and Lake St. Louis and the Lachine canal to Montreal. Her time would be thirty-two hours. If she was detained at New York her total time would be thirty hours and she would continue her southerly course via the Chateaugay section, Lake Champlain and the Hudson canal and river.

### BLAINE'S GOING ABROAD.

They Will Take a House soon in a London and leave for Europe. There is a Washington special to the Times says: The Blaine family will remove in the spring from the historic old house on Lexington square. Mrs. Blaine returned here a few days ago from New York, and though the family gives no intimation as to the outside world as to the object of this trip it is surmised to have been in connection with the offer recently made by Mrs. U. S. Grant to purchase the property.

The family will leave Washington early in May and go abroad for a year's residence. The Harbinger place will be leased. Mrs. Blaine's plan is to go direct to London and take a house in the suburbs. She will be accompanied by Miss Hattie Blaine, James O. Blaine, Jr., and the Coppinger boys. It is possible that Mrs. Emmons Blaine may join them. The greater portion of their absence from this country will be spent in London.

### IT DEPENDS ON BLOUNT.

Whatever the Navy Says About Hawaii Will Be Final.

New York, March 23.—A Washington special says that state department officials are beginning to talk about the mission of ex-Representative Blount to Hawaii. He is clothed with extraordinary authority and his instructions place him practically in control of United States interests in Hawaii during his stay on the islands. He has discretionary orders to decide after his arrival whether a continuance of the temporary protectorate established by Mr. Stevens is advisable. Pending a settlement of the matter it will be the policy of the administration to keep the war ships in Hawaiian waters. A continuation of Minister Stevens in office will, depend altogether upon Mr. Blount's report.

### CONTRASTS ON SHIPBOARD.

A Puglist, a Princess and a Banker Embark Together.

New York, March 23.—The steamship Majestic sailed for Europe Wednesday. Among the passengers were Princess Kaiulani, J. Pierpont Morgan, the banker, and Charley Mitchell, the puglist, the latter having in charge the money of his late father, Squire Abington.

Mr. Morgan denied the story published Wednesday morning that he was going abroad to negotiate a loan of \$50,000,000 in gold for the government.

Puglist Mitchell was given a reception by local sporting men, and his steamer was filled with floral tributes from his admirers. He made a little speech stating he and Corbett would surely meet.

Whisky will be the Tree Tops.

RATON, N. C., March 23.—Revenue officers Tuesday reported the seizure of an illicit distillery in Moore county operated by Lawrence Goins, in the middle of Tuckeehock pond. The only means of access was by boat. Goins had cut out the tops of some trees and on these built a shanty in which was the moonshine still. The still, of sixty-five gallons capacity, was in full blast. Goins was completely surprised; admitted that he had conducted the business some time and said he thought his location entirely safe.

Big Warship Aground.

LONDON, March 23.—A dispatch from Malta states that the British warship Undaunted, is reported to be aground in a bad position at Alexandria, Egypt. Assistance has been dispatched to her from Malta. The Undaunted, which is attached to the Mediterranean squadron, is commanded by Lord Charles Hereford. She is a twin screw, first class, armored vessel of 3,000 tons and 8,500 horse power. She mounts twelve guns.

Warrant for M. Arton.

BERLIN, March 23.—In compliance with the request of the French government, the public prosecutor in Strasbourg has been directed to secure the arrest on the last arrest of M. Arton, the fugitive Panama lobbyist. The nature of the warrant and the official description of Arton will be communicated to the police of all German cities.

The Platte on Its Annual Tear.

# THE CHOLERA.

## Great Progress in Europe of the Dread Disease.

### Victims Dying Off by the Thousands in Russia.

#### The Real Condition of Things Suppressed by Street Governmental Censorship.

#### Free Presses—There is No Doubt the Scourge Has Begun Its Work.

LONDON, March 23.—The fragmentary reports of the progress of the cholera in Eastern Europe which now and then leak through the strict governmental censorship of press dispatches leave no doubt that the scourge has begun its work again in earnest. All winter it has been seeping its victims in Russia, and now their number is rising on the increase. In southern and central Russia it is reported that the pest is now dying by thousands, and the entire population is panic-stricken. To add to this, the terrible disease which followed the famine was intensified by the hard winter is felt by hundreds of thousands, if not millions. The district most severely hit at present is Astrakhan, a port on the northwest coast of the Caspian sea. The governments Yekaterinopolis, in South Russia, and Moscow, to the north of it, are also feeling the terrible disease.

The Russian government is following its usual methods in such cases and using every effort to keep the news from the world. Here it is generally regarded as almost certain that the cholera will fight its way to the west, as it did last year, and preliminary precautions are being made accordingly. The same is true of all the great ports of western Europe.

### HORRIBLE BUTCHERY.

#### Kills His Wife and Sister-in-law and Cuts His Baby's Leg Off.

ALMA, Ia., March 23.—Mrs. Frazier killed his wife and sister-in-law and cut his baby's leg off, at Hittman, Wednesday morning. Frazier was about 40 years of age and lived at Carbondale. A few days ago his wife left him on account of his drunkenness. He was drunk and, taking her baby, went to Hittman to stay with his sister, Mrs. Smith.

Frazier came to Alma Tuesday and went on to Hittman Wednesday morning. Within ten minutes after landing there the terrible deed was committed. After finding the residence of Smith he walked in and slung a knife in his wife's heart, struck his sister-in-law in the breast, killing her almost instantly, and then proceeded to cut off the leg of his baby.

Neighbors heard the disturbance and instantly gave pursuit to Frazier, who had made for the woods. After about two hours' exciting chase by nearly all the citizens of the town, he was caught and turned over to the sheriff and posse, who undertook to bring him back to Alma. An infuriated mob of miners followed them, kept Frazier from the officers and hanged him. No motive was given for the crime except anger over his wife leaving him.

NOTHING CAN PREVENT. If Home Rule Is Passed There Will Surely Be Civil War.

LONDON, March 23.—A correspondent of the Daily Telegraph, who is traveling in Elster, writes that preparation have now gone so far that nothing can prevent bloodshed in case the home rule bill is passed. Despite the denials of Mr. Morley, chief secretary for Ireland, the correspondent says it is certain that the military authorities are seeking barracks accommodations in Belfast for a considerable force of troops. The guarantee fund intended for the war chest of the men of Ulster, is swelled daily by large contributions, as the hereditary of the persons not even appealed to for aid has surpassed all expectation. Each of four eminent Irishmen, the correspondence has subscribed £50,000, and the mayor of Belfast has given £10,000. The total amount subscribed already is more than £1,000,000.

### TERRIBLE CEREBRO.

#### Almost an Entire Family Wiped Out by the Disease.

BALTIMORE, March 23.—Cerebro spinal meningitis has nearly wiped out the family of Henry Wagner, an export merchant, in Severn, Md. The boy, aged 12, two days later an eight-year-old daughter died, and before she was buried Mrs. Wagner breathed her last. Two other girls and a son have since contracted the disease, and Wednesday evening the boy was dying. Cerebro spinal meningitis has been raging in sections of Maryland, and only recently has become epidemic in some parts of this city.

### Mexico Is About Ready.

#### General Zerrano Has Completed the Organization of the Mexican Commission to the Fair.

CITY OF MEXICO, March 23.—Miguel Zerrano, the Mexican World's fair commission, is here superintending the shipments of Mexico's exhibit to Chicago. Several extensive industrial and agricultural exhibits are to be forwarded this week. M. Zerrano has completed the organization of the Mexican commission to the fair.

### An Italian Steel Cruiser Coming.

#### Arrives at New York from the Mediterranean.

NEW YORK, March 23.—The Italian steel cruiser Etna, under the command of Admiral Magnaghi, has sailed from Spezia for New York to take part in the Columbian exposition demonstration. The Etna is a comparatively new vessel, having been completed in 1885, and steams seventeen knots an hour.

### Confesses Killing Wife and Child.

#### PARK, Tex., March 23.—T. Freeman, arrested for wife murder, has made a confession. He says he and his wife quarreled. She attempted to brain him with a plate of stove-wood, and he killed her and their child.

### Oxford Wins.

#### London, March 23.—The time made in the Oxford-Cambridge race, 18 minutes and 47 seconds, is not looked upon as especially good, especially as the Oxford record is 18 minutes. The Oxford won by two and a half lengths.
